+ ABOUT ME

A highly motivated and detail-oriented Computer Science student from Tbilisi State University, possessing a strong foundation in software development, object-oriented programming, and SOLID principles. Proven experience in writing clean, maintainable code and collaborating on real-world projects, complemented by leadership, organizational, and problem-solving skills honed as a former Team Manager in the transport industry. Adept at efficient task management, teamwork, and continuous learning, eager to leverage technical and interpersonal skills to contribute to innovative and challenging roles within the tech industry.

 - Gained familiarity with design patterns and code refactoring.
- Temu JAN 2024 - JAN 2025
Turkey
TEAM MANAGER
 - Supervised a team of 20 employees in a fast-paced logistics environment.
 - Coordinated schedules, improved route planning, and optimized resource allocation.
 - Communicated with clients, drivers, and departments to resolve operational issues.
 - Delivered training and mentorship to foster a cooperative work culture.

+ EDUCATION

- IT Academy Step 2022
Tbilisi
SOFTWARE ENGINEER

B.Sc. in Computer Science (In Progress) Tbilisi State University | Expected Graduation: 2025
 - Focus: Programming, Data Structures, Algorithms, Web Development
 - Activities: Hackathons, coding challenges, collaborative projects
- Tbilisi High School 2022
Tbilisi
HIGH SCHOOL DIPLOMA

Software Engineering Certificate IT Academy Step, Tbilisi | 2022
 - Studied IT essentials and programming with professional instructors.
- CISCO Georgia 2022
Tbilisi
CPA (C++ CERTIFIED ASSOCIATE PROGRAMMER CERTIFICATION)
 - Essentials in C++ and OOP
- CISCO Georgia 2021
Tbilisi
COMPTIA A+ CERTIFICATION
 - IT Essentials Program provided by CISCO under control of professional teachers.

+ PROJECTS

- <https://github.com/BairamovAllaz/BlogAppFront> MAY 2025
MEDIUM BLOG APP
 - Built a full-stack task management application using React, Node.js, and MYSQL.
 - Implemented secure user authentication, task CRUD operations, and role-based access.
- <https://github.com/BairamovAllaz/VideoCallAppFrontEnd>
VIDEO CALL APP
 - Developed a video calling application using TypeScript and React.
 - Integrated WebRTC for peer-to-peer video communication.
 - Implemented UI components, connection handling, and responsive design.
- <https://github.com/BairamovAllaz/PersonalCollectionFrontEnd>
PERSONAL COLLECTION APP
 - Created a full-stack personal collection manager using React, Node.js, and MySQL.
 - Enabled users to add, update, and delete items from a categorized collection.
 - Designed RESTful APIs, implemented search/filter features, and built responsive UI.
- <https://github.com/BairamovAllaz/My-Portfolio>
PORTFOLIO APPLICATION
 - Created a full-stack personal collection manager using React, Node.js, and MySQL.
 - Enabled users to add, update, and delete items from a categorized collection.
 - Designed RESTful APIs, implemented search/filter features, and built responsive UI.
